Ok! I did some significant editing, thinking that what we needed was a complete 2 pager that Tom could provide to OPP based on Kacee's guidance.

I used Vince's draft and the comments from Danelle and Charles.

I have attached a redline but I would just read the clean copy if I were you. It got messy because I added a bunch of additional comments and statements around what Vince provided ☺.

See what you think.

Hi Charles and Danelle

Vince has summarized the perspectives expressed at our discussion with Tom a couple of weeks ago. Can you take a look and make sure you are okay with how he characterized things? I expect this write up will be transmitted to OPP.

Deliberative Process / Ex. 5

Thanks

Norm

Hello Norm—Here are my thoughts on Kacee's second item below (ORD's conclusions under the cancer guidelines). The scientists who reviewed glyphosate materials didn't develop conclusions. If pressed, though, here's what I think might become a joint conclusion. It would be good to circulate this among the ORD scientists to get their views and edits ...
Thanks!—Vince

Good morning. See below for the next steps on glyphosate. OPP is anxious to see ORD's specific comments, so they can begin working on them. Please take a look at Tom's action items below and let me know if the table is ready to share. Also, can you draft the short summary of ORD's conclusions, and provide the summary of the cancer guidelines that was used at the briefing for Tom?

We'd like to get these over to OPP as soon as possible. Once I get the materials from NCEA, we can circle back to make sure that Tom is ok with the the whole package.

Thanks in advance, and please let me know if we need to discuss.

Hi Jackie –

Nice to run into you today in the food court! I talked with Tom about glyphosate, and here are the next steps:

Deliberative Process / Ex. 5

Thanks! Give me a call if you want to talk about any of this. I'll assume OSP will do the coordinating on this unless I hear otherwise from you.
